Subject: 300 Commitment Plan initiative by Border Program

Within the US–Mexico border region, Electronic Waste (eWaste) transfer of used electronics to Mexico border communities, Texas is where the highest tons of electronics after it have had its life cycle, crossed from TX to Mexico, mainly through El Paso, Laredo, and the TX Lower Rio Grande Valley's Ports of Entry; through a Private – Public eWaste activity proper disposal of eWaste accordingly to each country's laws and regulations around 45Thousand Tones of e_waste need to be appropriately disposed.

Outcome. - By potentially 45 Thousand Tons of eWaste, our Goal 3 program has established a binational initiative for collection, recycle metals that have added economic value and disposal of hazardous waste at authorized landfill, protecting air and water as well public health's risk of exposure to cancer and other learning impediment health effects;

Saludos desde El Paso del Norte
